PROFESSIONAL MASTERS COMMITTEE REQUIREMENTS

- The committee must include at least three WSU faculty
- All committee members must hold a degree of comparable level to the degree sought by the student
- The chair of the committee must be graduate faculty in the student's program (there are no exceptions to this requirement)
- One other member of the committee must also be graduate faculty in the student's program
- The third member may be faculty from another WSU program, but must be a member of his/her own department's graduate faculty. Individuals from private industry or non-profit organizations that actively participate in the professional program in some capacity (i.e., advisory board) may serve as a third committee member if they are on an official courtesy appointment at WSU (there are no exceptions to this requirement).
- Committees may have more than three members; however, members must meet the Graduate School policy and program bylaw guidelines (see Chapter 1, section on Graduate Faculty, for more information). An additional member who is not a member of the WSU faculty, who holds a relevant degree of the appropriate level, and whose knowledge is particularly important to the proposed program, may be requested for approval by the Dean of the Graduate School. This might be faculty from another institution or an individual from an appropriate government, business, or industry organization. Such an individual may be nominated and approved to serve on the committee on a case-by-case basis by the program. Please include a rationale for the nomination in the appropriate space below as well as a copy of the nominee's curriculum vita.
