

ADDENDUM

Graduate Studies Committee

October 1st, 2013

Courses:

EE 526: High Voltage Overhead Transmission Lines – **[Heo, Johnson]**

Electrical Analysis, performance and design of high voltage transmission lines, power capacity, electromagnetic environment, electromagnetic compatibility, measurements, grounding.

FS 532: Advanced Food Microbiology – **[Vyhnanek, Salisbury]**

Discuss Current topics in foodborne Pathogen including novel detection method, virulence and pathogens, and their interaction with environment and host.

Bylaws:

Plant Pathology – **[Heo, Daratha]**
