ADDENDUM
Graduate Studies Committee
October 1st, 2013

Courses:
EE 526: High Voltage Overhead Transmission Lines – [Heo, Johnson]
   Electrical Analysis, performance and design of high voltage transmission lines, power
   capacity, electromagnetic environment, electromagnetic compatibility, measurements,
   grounding.

FS 532: Advanced Food Microbiology – [Vyhnaneck, Salsbury]
   Discuss Current topics in foodborne Pathogen including novel detection method,
   virulence and pathogens, and their interaction with environment and host.

Bylaws:
Plant Pathology – [Heo, Daratha]
