Justification for Removal of E M 590 from the Classes Eligible to Meet the Requirements in the Graduate Certificate in Managing Financial Resources.

At the March 3, 2012 Faculty meeting of the Engineering and Technology Management Program, the faculty voted to remove the class E M 590 Design for Product and Service Realization from the list of classes eligible to meet the requirements of the core selective for the Graduate Certificate in Managing Financial Resources.

A review of the course content revealed that there was insufficient content in the E M 590 class specific to the Financial Management arena. Both E M 505 Financial Management and E M 545 Technical Decision Making will remain as core selectives for this area.
