Rationale: ECE 702 Master's Special Problems, Directed Study, and/or Examination

This course is a required component of WSU Vancouver's proposed MSEE degree program. Graduate students enroll in this variable-credit course in order to receive credit for working on their research projects. It covers a broad range of research activities that do not fall under any other course number. There is no syllabus for ECE 702 because of the broad range of activities that it covers.
