Dear Associate Deans and Vice Provosts:

In the spirit of a more open and informal meeting of graduate education leadership I am proposing that we spend our next meeting focused upon graduate education in a state-wide context. I have attached a report that was assembled by a Provost Committee last year on expanding graduate education to all WSU campuses. My co-chair for that committee is a part of this group, Associate Vice Chancellor, Christine Portfors. Many of you were also on that committee. She and I will lead a discussion on this issue. Please review the attached document before our April 18 meeting. If time allows we will also discuss protocol for graduate student funding at various WSU campus locations.
