

3rd Annual WSU Plant Science Symposium: *Foundations for the Future: Embracing New Agricultural Technology*

<https://plantsciencesymposium.wsu.edu/>

Are you interested in learning about new agricultural technologies and how they will impact food production? Looking for a way to network with other plant scientists? Want to hone your science communication and presentation skills? Join us for our plant science symposium, a member of the Pioneer Plant Science Symposium series on:

**Friday, March 22nd, 2019
at Washington State University**

Feeding the future depends on innovation in agriculture, including new technology, diverse crops, and improvement to classic methods.

The event will be held in the WSU Elson S. Floyd Cultural Center. Registration is **FREE!** and includes snacks, lunch, and drink tickets for a social mixer. There will be a poster session and prizes for the best posters. There is also an opportunity for graduate students and postdocs to apply to present a short talk. We even have travel scholarships available for students on our website.

We are excited to announce all of our confirmed speakers! We will hear about the most current and exciting research in agriculture from:

- Dr. Joyce Van Eck, Associate Professor at the BTI Center for Plant Biotechnology Research
- Dr. Lav Khot, Assistant Professor in the Dept. of Biological Systems Engineering at Washington State University
- Dr. Sayed Azam-Ali, Professor at University of Nottingham-Malaysia and CEO of Crops for the Future
- Dr. Argelia Lorence, Professor of Metabolic Engineering at Arkansas State University
- Dr. Amanda Cavanagh, Post-doctoral researcher at the University of Illinois
- Dr. Rosana Serikawa, member of the Integrated Field Sciences team at Corteva Agriscience

Mark your calendars! Abstract Submission & Travel Scholarship application deadline is ~~January 20th~~ EXTENDED to February 9th!, while General Registration deadline is March 1st. Instructions for general registration as well as poster abstract applications are available at our website: plantsciencesymposium.wsu.edu
