WE'RE HIRING

WSU Infant Temperament Lab

Community Liaison

Job Position
We are looking for someone local to the Pullman-Moscow area for the paid part-time position of a community liaison with very flexible hours. Since we conduct research with families, it would be great for people in the community to learn about our projects from a parent’s perspective.

WSU Infant Temperament Lab
Our research focuses on temperament development in early childhood in order to better understand social-emotional development more broadly.

Commitment
Part-time position with very flexible hours. We are hoping that this position would be maintained for the next 3-5 years.

This position does not include a tuition waiver and will be considered until the position is filled.

Dr. Masha Gartstein
