## GETTING STARTED

### Access the myWSU portal

1. Establish your Network ID (NID)—a different identifier from your student ID.
2. Visit **[my.wsu.edu](https://my.wsu.edu)** and follow the instructions, which requires your WSU student ID number and social security number (SSN).
3. Both your student ID number and NID are required to apply for admission and to check the status of your application, financial aid, student account, and housing and dining services accounts.
4. If you are unable to provide your SSN, WSU will assign you a one-time access code. After you create your NID, log into myWSU and check your status. (After this step, the one-time access code is void.)
5. Once you're admitted to graduate school at WSU, and have your NID, please accept your offer of admission in the myWSU portal before you register for classes. Then use the myWSU portal to register for classes, pay tuition, view grades, and update your personal information.

### Deadlines

- Registration for fall and summer classes begins around May 1.
- Registration for spring opens around December 1.
- To register for classes, log into myWSU, select Manage Classes, Class Search and Enroll.
